

## Policy for Managing Donations

We offer 3 different ways to assist you in managing donations:-

1. A sealed collection box for donations at the funeral service itself.
2. Providing a QR code on the order of service which links directly to the charity.
3. Much Loved – an online tribute platform through which donations can be made to the chosen charity.

Options for managing donations will be discussed with you during the arrangement meeting when you can opt for any or all the above methods.

### Sealed Box for cash and cheque donations

We can supply a sealed box labelled with the name of your chosen charity. During the funeral service the box will be placed at the back of the service room, church or crematorium chapel. After the funeral the sealed box will be handed to you.

### QR codes for funeral stationery

If you are having an order of service printed through us, we can add a QR code to it to allow easy and secure giving. A benefit for those without cash and are comfortable making online payments.

### An online tribute

This is your own special memorial website where you can share memories, thoughts and stories with family and friends as well as light candles, add music, photos and videos. You can collect fundraising donations for a special charity or project in their name.

We create the tribute page for you free of charge. You will receive an email which will provide your login details and enable you to make any changes you want to the page. The funeral details will also be displayed in our 'Funeral Notices' section of our website for a few weeks to help provide funeral guests with all practical and donation information.

**Please note that unfortunately we cannot accept any donations directly.**
